East St. Louis, March 8, 1909.

No. 22.—M. R. Ry. Louis Christian Wilhelm Fillel Aysen, Inspector of Schools, Seneca Co., N. Y., privilege leave for three months with effect from 1st April 1909 under articles 240 and 241 of the Civil Service Regulations.

POSTGRADUATE STUDY

*East St. Louis, March 4, 1918.*

No. 12.—Under the Indian Universities Act, 1904, section 19, the Chancellor of the University of Madras is pleased to nominate Dr. HARRIS W. TRAVERS, F.R.S., to be an Ordinary Fellow of the Madras University.

*Prof. R. Grasse, March 5, 1950*

Ns. 24.—In G.O.s, Nos. 46 and 630, Educational, dated respectively 23rd January and 26th September 1906, and G.O. No. 103, Educational, dated 10th February 1908, the situation of the public was invited to the scheme of technical scholarships instituted by the Government of India, and information was furnished regarding the object of the scholarships and the conditions under which they were offered. Since the introduction of the scheme in 1906, three scholarships have been awarded to candidates from this Presidency, one in 1906 to Mr. G. N. Deval for the study of the weaving industry, one in 1907 to Mr. N. A. Ramnath Pandkar for the study of the leather industry and one in 1908 to Mr. V. Govindrao Nair for the study of textile chemistry as applied to the dyeing, bleaching, finishing and printing of textile fabrics.

2. After consulting the Chamber of Commerce, the Trades Association and some of the leading commercial firms in Madras, the Governor in Council considers that a scholarship may most advantageously be assigned in the current year for the study of the chemistry of soap-making and the use of native oils. The candidate for the scholarship should have taken the B.A. degree with Advanced Chemistry (Passes II-B of the Madras University) as his optional subject, but the claims of candidates who have passed in Chemistry for the degree will also be considered. Candidates desirous of prosecuting the technical study of the chemistry of soap-making and the use of native oils should submit their applications to the Director of Public Instruction so as to reach him on or before the 28th March 1909.

3. Ordinarily the period for which these scholarships may be held is two years, but in special cases, it may be increased to three years or reduced below two years. The value of the scholarships has been fixed at £150 sterling a year, but if in any particular case this amount is found insufficient, the Government will be prepared on good grounds to consider its enhancement. The scholarships are tenable in Great Britain and with the approval of the Secretary of State in a foreign country.

4. The holder of the scholarship will not be bound by any engagement to serve the Government on the completion of his course nor will the Government be bound to employ him. In selecting candidates, the Governor in Council will be guided by considerations of capacity, character and personal interest in the industry selected, and the assurance that the candidate will continue to devote himself to that industry on his return to India. No age limit is laid down for scholars. The course of study to be followed as well as the place in which it is to be prosecuted will be settled by the Secretary of State when a scholar arrives in England. Other conditions under which the scholarships are held are—

- (1) that the candidate is a native of India as defined in section 5 of the Government of India Act, 1874, viz., "a person born and domiciled within the dominions of Her Majesty in India, or parents habitually resident in India, and not established there for temporary purposes only";
- (2) that he has the consent of his family (i.e., of his father, if alive; if deceased, of his guardian) to proceed to Europe or America;
- (3) that his character is good;
- (4) that he has sufficient knowledge of the English language; and
- (5) that he is physically fit to undergo the course of life and study that he will have to follow.

5. The following rules for Indian Government Technical scholars in England will also be published for general information:—

- (1) Every scholar shall, on reaching England, at once present himself to the Secretary, Judicial and Public Department, at the India Office, and report his arrival in writing.
- (2) Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University or College he is about to proceed, and shall at once take steps to enter himself thereat.
- (3) Every scholar shall, within four weeks of reaching England, submit for the approval of the Secretary of State a statement showing the general course of study he proposes to follow; and the course approved shall not be changed without the sanction of the Secretary of State.
- (4) Every scholar shall, at the end of each term of residence at a University or College, submit to the Secretary of State a certificate from the proper University or College authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.
- (5) Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.
- (6) Subject to due compliance with the above conditions, the allowance, at the rate of £150 a year for two years, or three years, if so determined, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England; but this allowance shall be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University or College during the same period or any part of it, but not in respect of University or College fees, the cost of which will be separately defrayed by the Secretary of State.

The Standard Barometer and Thermometer are read at 8 a.m., 10 a.m., 4 p.m., and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The column of the Barometer is twenty-one feet above the level of the sea, and the receiver of the Rain Gauge is twelve feet from the ground. The wind, rain, and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 9.35 inches: the average due to the same period being 1.25 inches.

There were 25 miles breeze during the month. The resultant corresponding to the above numbers is represented by a E.N.E. wind, blowing with a uniform daily velocity of 24 miles.

The chief feature of the weather at Madras was the south of the Presidency was the strength and persistence of the easterly winds during the last fortnight, which on occasions were stronger than the normal winds in December. On the 17th weather became unsettled on the Madras Coast and a few light showers fell here. Further south rainfall was much heavier, Nagapattinam receiving 14 inches and Pudukottai 2 inches. These disturbed conditions lasted for two or three days and extended in fact, Trichinopoly reporting 14 inches of rain on the 24th. Fine weather then set in and prevailed till the end of the month.

### GOVERNMENT OF INDIA.

#### LEGISLATIVE DEPARTMENT.

**BILLS introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 22.**

The following Report of the Select Committee on the Bill further to amend the Whipping Act, 1864, and the Code of Criminal Procedure, 1898, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 26th February 1909:—

We, the undersigned, Members of the Select Committee to which the Bill

- Further to amend the Whipping Act, 1864, and the Code of Criminal Procedure, 1898, was referred, have considered the Bill and the papers annexed to the margin, and have now the honour to submit this report, with a concluding Bill, prepared by us for adoption in place of the original amending Bill, annexed thereto.

From Government, Eastern Bengal and Assam, No. 4011-J., dated 26th August 1908, and enclosure (Paper No. 12).

and very little of the original Act now remains on the Statute-book. A further

amending Act does not in the circumstances seem to be desirable. We have, therefore, prepared a consolidating Bill, which repeals the Whipping Act, 1864, with its amending amendments, and reproduces the law as contained therein with the amendments proposed in the Bill as introduced and certain further amendments now suggested by us. These are explained below in connection with the clauses of our consolidating Bill.

3. *Clause 2.*—By this Bill as introduced to omit clause (2) of section 2 of the Whipping Act, 1864, relating to thefts by clerks or servants. In order to make the effect of this omission more clear we have added words to subclause (a) of this clause, which relates to thefts generally, expressly excepting such thefts from its scope.

4. *Clause 4.*—To the offences specified in clause 3 of the Bill as introduced we have [see sub-clause (b)] added attempted offences when committed on amending victims. We consider whipping to be a very suitable punishment for such an offence.

5. *Clause 5.*—We have amended section 5 of the Whipping Act, 1864 (severely offenders), to which this clause corresponds, so as to expressly exclude from the punishment of whipping all offences under the Indian Penal Code which are of a political character and to allow whipping for offences punishable with imprisonment under any other law only when such offences are committed by the Governor General in Council in that behalf.

6. *The Schedule.*—It has been brought to our notice that the special provisions contained in the Buxar Laws Act, 1868, relating to the punishment of whipping in Upper Bihar, are no longer required; we have accordingly included them in the schedule of enactments proposed for repeal.
